

REGISTRATION FORM FOR LEXIS

The Lexis system is an entirely ear-level digital communication system for use with behind the ear (BTE) instruments. The ear-level wireless FM receiver can easily be connected to most manufactures' hearing instruments by an audio shoe.

Audio shoes are no longer available through MSD. You will need to contact an audiologist in your area or the Student's audiologist to purchase the audio shoe.

A typical package will include a digital directional microphone/transmitter and two ear-level compact receivers.

Name of School _____

District: _____ County _____

***THIS PORTION MUST BE COMPLETED FOR EQUIPMENT TO BE ISSUED**

Because of the limited supply of Lexis systems, we reserve the right to select which child will be chosen to use this system based on the information supplied to us.

Each case will be reviewed on an individual basis. Please list below why you feel the Lexis would benefit your student and include a most recent audiogram:

Rental fee for the Lexis with one hearing aid is \$545.00 for the school year, with two hearing aids, \$790.00.
